REMARKS

25X1

25X1X

1. Intensive flying was observed at Justerbog-Altes Lager airfield on the following dates:

18 May: Jet bombers made flights throughout the day beginning at 7 a.m.

19 May: Flying was practiced only in the afternoon.

21 May: Jet bombers flew from noon to 5 p.m.

22 May: Individual biplanes practiced flying.

23 May: Flying was conducted with jet bombers from 7 to 10 a.m. and from 4 to 6 p.m.

24 May: Many flights, including jet bombers, were made after 6:30 a.m.

2. Between 5 and 6 p.m. on 23 May, seven landings of jet bombers were observed from a hill south of Justerbog. The jet bombers flew in the direction of the woods near Altes Lager. About two minutes after a plane was out of sight the loud noise of jet engines was heard for about one to two minutes from the same direction. This indicated that the planes probably taxied to the runway. *
